

Sustainability Policy

Island Steel UK Ltd is committed, as an integral part of its business, to Sustainable Development and growth.

Including environmental and social considerations into all its strategic and operational decisions, the company believes that acting in a Sustainable manner is not only a business imperative, but also provides a long-term competitive advantage.

The company will endeavour to:

- Uphold strong values in our relationship with stakeholders and consider them as partners in our growth and development.
- Where possible, engage with the local community to improve the quality of their lives in areas like Education, Employability, Entrepreneurship, Health and Sanitation in line with community priorities. We will also support the preservation and promotion of indigenous cultures and values.
- Motivate our human resources for superior performance and innovation through skill development, and by providing them a safe, fair and challenging work environment.
- Commit to conserve natural resources and ecology by working to efficiently manage natural resources, energy and wastes, and by reducing ecological impact in all areas of our operations.

The company will adopt technologies, green infrastructure, and clean energy wherever possible to:

- Deploy safe and environment friendly processes for our products and services
- Ascertain and continually improve the safety and environmental efficiency of our customers and their products which uses our products and services.
- Engage with employees, supply chain partners and other stakeholders to build awareness on sustainability, identify opportunities and promotes adoption of sustainable practices.
- Supersede legal requirements in the socio-economic and environmental areas.
- Measure and Report our Sustainability performance and initiatives to our stakeholders annually.
